**Baker's RP-40** is an industrial limestone with a wide variety of uses as an extender or filler, used as an acid neutralizer, separation media or as a chemical additive. It is a finely pulverized limestone to meet demanding production schedules and end product specifications. Whatever the need Baker Lime has the product, quality, service and commitment to provide the best value. That is our tradition and that is our promise since 1889. Baker's RP-40 is a high purity Dolomite limestone mined directly from our quarry.
